

# Cleaning Procedure at WACC

## HOW TO CLEAN AND DISINFECT

Wear disposable gloves to clean and disinfect.

### ①. Clean:

Clean surfaces using soap and water solution.

Practice routine cleaning of frequently touched surfaces.

### ②. Disinfect:

-Clean area or item with soap and water or another detergent if it is dirty. Then use a household disinfectant, Hydrogen Peroxide, and water solution with microfiber towel.

### ③. Wipe with solution but DO NOT DRY.

Solution must be allowed to air dry

#### SOAP AND WATER SOLUTION:

To be made each morning:  
1 tablespoon of Dawn per spray bottle

#### HYDROGEN PEROXIDE SOLUTION:

1 part Hydrogen Peroxide to 2 parts water

#### WHEN SOMEONE IS SICK:

- Isolate them immediately outside.
- open windows if person was inside.
- clean and disinfect all areas, equipment, and materials used by this person.

#### HAND WASHING:

- All kids must wash their hands when coming from school & before eating while at the center.

#### ELECTRONICS:

Use screen wipes after each use.

#### TRANSITIONS:

Recommend washing hands often. Hand sanitizer is located by all doorways.

#### GAME ROOM: before leaving the room

- Clean tables with soap and water solution
- High surface areas, chairs, door handles, and water fountain are disinfected with Bleach solution on a microfiber towel each evening when the center is closed.

#### YK ROOM: before leaving the room

- Clean tables with soap and water solution
- High surface areas, chairs, door handles, and water fountain are disinfected with Bleach solution on a microfiber towel each evening when the center is closed.

#### OUT FRONT: After lunch & snack times

- Clean tables with soap and water solution with a microfiber towel

**BATHROOMS: Are cleaned and disinfected with Bleach each night after the center has closed.**
